Professional (Surveyor)

Updating results

submission

Sistema Inter Scambio Territorio
<http://sister.agenziaterritorio.it/>

Updating results

submission

Document check

Competent AdT Local Office

Request for service enabling Deposit in an AdT account and related credit limit opening

Check on digital signature validity and document completeness

Fees calculation and payment from deposit

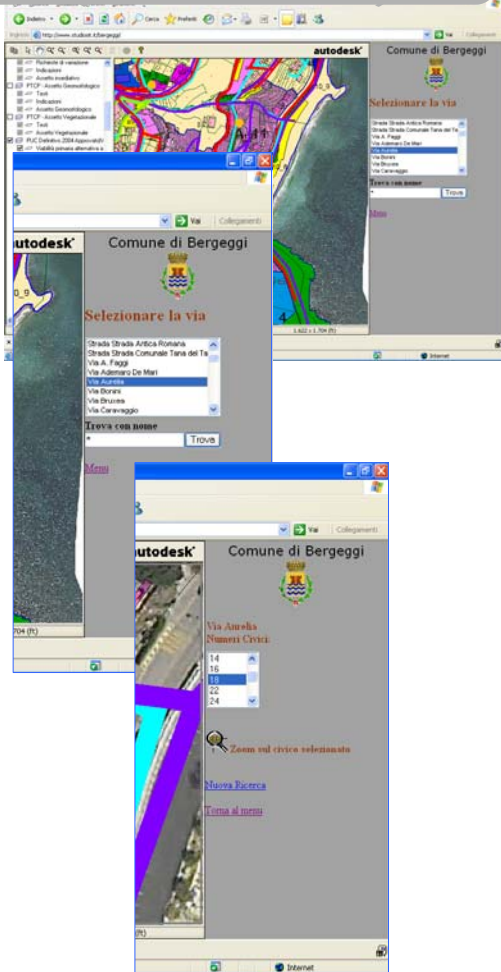

Updating of the cadastral DBs

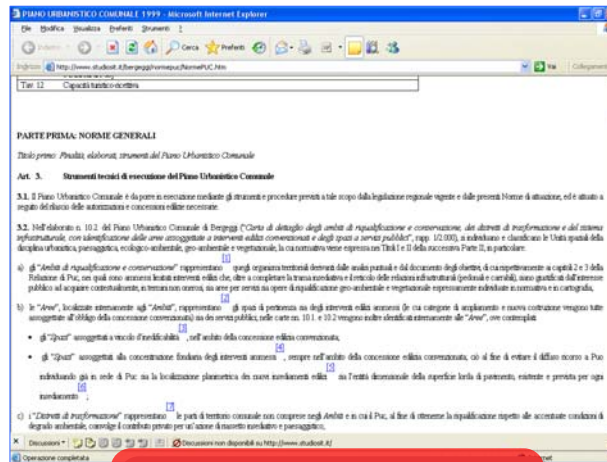

Easy access to some kinds of information (i.e. addresses)

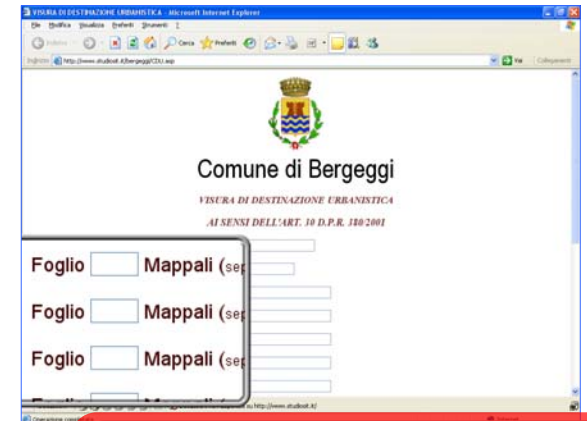

ACCESSIBILITY HAS A LOT OF MEANINGS

ACCESSIBILITY TO INFORMATION THROUGH INTERNET

Easy and shared access to rules

Administrative Certificates

CADASTRAL IDENTIFIERS ARE ESSENTIAL ELEMENTS

2. Accessibility to HARDWARE

AVOID WORSE ACCESS CONDITIONS

ADOPTION OF HARDWARE AND USER FRIENDLY SOLUTIONS

LAW N. 4/2004

ACCESSIBILITY

is the capacity of IT systems of providing services and information without any kind of discrimination, also regarding persons who need specific assisting technologies or particular IT configuration

EASY ACCESS TO
CONTENTS OF
IT APPLICATION

RESPECT OF
INTERNATIONAL
STANDARDS:

- ISO 9241
- World Wide Web Consortium (W3C)

- Easy in use
- Efficiency
- Same results using different browsers
- Effectiveness in use and user friendly
- Ensure access, avoiding not justified uneasiness

3. Accessibility to IT procedures in the Italian Legislation

D.P.R. n. 75/2005

ACCESS OF HANDICAPPED PERSONS TO IT RESOURCES

Ministerial Decree 8/7/2005

The Public Body asks for to CNIPA(*) the check-up of its IT Applications

ANALISIS OF THE IT APPLICATIONS

ANNEX A
Internet Sites
(Technical requirements)

ANNEX B
Subjective Check-up through a simulation

ANNEX C
Desktop Personal Computers and Laptops

ANNEX D
IT Products
(Technical requirements)

Correct use of computer languages, especially X-HTML

Quality Level

Referred to Section 508 of the Rehabilitation Act

(*) C.N.I.P.A. = Centro Nazionale per l'Informatica nella Pubblica Amministrazione – National Center for Computerisation in the Public Administration

3. Accessibility to IT procedures in the Italian Legislation

- Recommendation of the World Wide Web Consortium (W3C), especially Web Accessibility Initiative project (WAI);
- Standards of paragraph 1194.22, Section 508 of the "Rehabilitation Act" (U.S.A.);
- Standard and technical requirements of International Organization for Standardization (ISO);
- Circ. AIPA del 6/9/2001;
- President of the Ministers' Council Directive 30/5/2002, regarding Internet domains.

Ministerial Decree 8/7/2005

GUIDELINES ABOUT TECHNICAL REQUIREMENTS AND ACCESS CRITERIA

3. Accessibility to IT procedures in the Italian Legislation

Ministerial Decree 8/7/2005

GUIDELINES ABOUT TECHNICAL REQUIREMENTS AND ACCESS CRITERIA

ANNEX A
22 technical requirements for Internet Sites

i.e.
n. 3: Provide textual alternative for each no textual object

ANNEX B
Subjective Check-up through a simulation

CHECK-UP CRITERIA

- Perception
- Comprehension
- Operability
- Coherence
- Safety
- Security
- Transparency
- Helping on line
- Error prevention
- Acceptableness
- Flexibility

ANNEX C
Desktop Personal Computers and Laptops

7 technical requirements

i.e.
n.3: Keys and push-buttons must be tactile perceptible, regardless they are activated

ANNEX D
Technical requirements for IT products

11 requirements

i.e.
n. 11: The product documentation must be available also in IT accessible format

4. A new postal service: Certitel Catastale

Posteitaliane

SERVICE IN FIGURES

- The service provides cadastral certificates (only in the same province)
- The application is submitted to the Postal Office
- In case of problems (i.e. not clear situation, etc.), certificates are subsequently sent to the applicants by e-mail or postal service
- The service is usually provided in three minutes
- It is possible to apply for certificates, providing cadastral identifiers of real estates or personal data of owners
- Maximum 3 certificates for any application

WORK-FLOW

1. The applicant applies for the certificate at the postal desk
2. The officer digits the data of the paper form into the IT application
3. The enquiry is transmitted to the IT Database
4. The applicant pays the service according to the tariffs
5. The officer issues the certificates, receipt and an operational code

4. A real case: E-Government Project in Mozambique (2005-6)

SITUATION IN FIGURES

FRONT-OFFICE OF LOCAL OFFICES

ONE STATE, SEVERAL LANGUAGES AND POPULATIONS

WIDE TERRITORIES AND LACKS IN INFRASTRUCTURES

ILLITERACY AND NO ACCETTABLE LIFE CONDITIONS

- APPROPRIATE IT CADASTRAL APPLICATION
- DECENTRALISATION OF DATA ACCESS
- ACCESSIBILITY TO DATA THROUGH INTERNET
- DATA SECURITY MAINTAINING
- DB UPDATING THROUGH INTERNET

"Where it is possible, that is, where it is functioning a PC of an appropriate public body, linked to the government network or to internet, it should be given the possibility of issuing administrative certificates or documents, obtained by the LAND INFORMATION MANAGEMENT SISTEM".
